Head of Secondary

OIS Grade Descriptors for Term Marks:

A+ and A

The student demonstrates a consistent and thorough understanding of the required knowledge and skills, and has the ability to apply the knowledge and skills without error in a variety of situations. The student regularly shows evidence of analysis, synthesis and evaluation where appropriate. The student consistently demonstrates originality and insight, and excels in formative and summative assignments. (The student meets and exceeds all required course learning standards.)

B+ and B

The student demonstrates a consistent and thorough understanding of the required knowledge and skills, and has the ability to apply the knowledge and skills with few errors in a variety of situations. The student generally shows evidence of analysis, synthesis and evaluation where appropriate, and occasionally demonstrates originality and insight and does well on most formative and summative assignments. (The student meets all course standards and excels at some of the learning standards.)

C+ and C

The student has a general understanding of the required knowledge and skills, and has some ability to apply the knowledge and skills effectively in normal situations. There is occasional evidence of the skills of analysis, synthesis and evaluation. The student completes most of the formative and summative assessments. (The student meets all course learning standards.)

D+ and D

The student has limited understanding of the required knowledge and skills and is only able to apply the knowledge and skills fully in normally situations with extensive support. The student has difficulty completing formative and summative assessments. (The student does not meet most of the course learning standards.)

F

The student does not understand the required knowledge and skills, and is unable to apply them fully in normal situations, even with support. The student is not able to complete formative and summative assessments. (The student does not meet the course learning standards)

ASW High School , Semester Grade s and Grade Descriptors for 2012 -13

Subject	Teacher	Teacher Comment
12 Chemistry SL	Ms. Richa Gupta	Shubhi is an extremely able and enthusiastic member of the group who takes a keen interest in Chemistry .She has developed a good conceptual understanding and is always willing to share her ideas with the rest of the class during discussion. Test results have been very good. The general quality of her written work has been consistently very good, both in terms of content and presentation. She needs to be more methodical in her approach to the subject and revise carefully for tests if she wants to improve her grades next term.
12 Economics HL	Ms. Sejal Khara	Shubhi has demonstrated good understanding of the content learn t this semester. She participates actively in all class discussions and puts in a lot of effort into projects and home work assignments. She turns in assignments on time and they are done to the best of her ability. Her notes are complete and well organized. She has a real ability in the subject and the potential to do well. Her thoughts are logically and sequentially presented and arguments are put forth in a well balanced manner. She has excelled in all areas and has produced an excellent standard of work. Her enthusiasm and determination has been a fine example to the rest of the group.
12 English A1 SL	Ms. Meredith Klein	Shubhi has made excellent progress this term in English class. Her work reflects strong analytical skills and consistent effort to consider deeper meanings of texts. Her written work is detailed and thoughtful. Great work.
12 Math HL	Ms. Rahidabano Patel	Shubhi is a hard-working student. She is able to work independently and confidently. She has demonstrated a considerable understanding of concepts and skills taught this term, but sometimes makes careless mistakes, which can be avoided thorough revision and practice. She must start solving IB papers. I wish her all the best
12 Physics HL	Ms. Jagruti Joshi	Shubhi, as a Physics student is well disciplined. She seems enthusiastic in the class. She should solve challenging problems and seek clarifications whenever in doubt. She needs to develop problem solving skills and techniques, which is possible with sustained effort.I am sure she will do better in IBDP exam.
12 Spanish AB SL	Ms. Susan Ansari	This semester has been very successful for Shubhi as she continues to make progress in Spanish. She is a very eager and hard-working student and her efforts pay off. She is one of the most frequent contributors in class discussions and often incorporates new material. In addition, I am very pleased with her consistent preparation for tests and her ability to work within deadlines. Her comprehension and speaking skills especially have clearly improved although I encourage her to work on pronunciation. Regarding her writing skills there is still room for improvement, for example in subject verb agreement and correct use of different tenses. Over all, it was a pleasure to teach Shubhi and I believe that with continued effort she will have success.
12 Theory of Knowledge	Mr. Alexander Best	Shubhi has not been able to do well this term in TOK and has a failing grade. The main reason being that Shubhi has failed to turn in six assessments for TOK this term. Shubhi has to understand the importance of work being submitted and assess her own work clearly using the assessment criteria. This will help her stay on task in a focused manner.
